MESSAGE FROM DIRECTOR OF STUDIES

'Education is the first step to creating prosperity and quality and we, here in Cadet College Ghotki, continuously strive to extend the reach of high quality beyond the barriers of cultural boundaries.

Since the foundation of Cadet College Ghotki, we have been deeply committing ourselves to inculcating in cadets a disciplined way of life based on the civil-military models of character building with an objective to enable them to face challenges of life with knowledge, competence and character. Apart from quality education, cadets from their very first day at the college are lessoned how to sharpen their skills of self-development. A comprehensive focus is put upon their learning, health, psychology, boarding and corporeal needs.

However, provision of quality education is the prime objective of ours which cannot be achieved without sustaining the benchmark of highly qualified and trained faculty. We have, indeed, competitive faculty, educated from country's high ranking universities with post qualification experience in the best institutions,

who teach with passion and having fatherly interactive relationship with the cadets.

The campus is magnificently built. All Classes and Labs are well equipped with facilities such as projectors and internet to educate through modern means of teaching. To enhance cadets reading habit and creativity, each class is allotted a reasonable number of library periods. Including regular public speaking classes, on weekly basis group discussion periods are also conducted for developing cadet's confidence, language and oratory style. On regular basis, including one-on-one session of the Psychologist with a cadet, psychology classes are held for each class to train and motivate cadets to sustain their emotional health.

The learning assessment of the cadets is done through spot tests, class tests, regular fortnightly MCQs tests term examinations and annual examinations. Besides giving encouragements and awards to the positions holders, for slow learners extra coaching classes are arranged so that they must effectively catch up the syllabus.

We believe in teaching with nontraditional and qualitative approach so that a student of ours must effectively compete with his counterpart at national and international levels. Therefore, every concrete effort is made to manage the provision of education compatible with the requirements & challenges of the post Covid-19 pandemic world.
